

NATIONAL PETITION TO RE-ESTABLISH THE CCC CIVILIAN CONSERVATION CORPS

Dear Representative Marcy Kaptur of Toledo, Ohio

We the undersigned Citizens of the United States fully support and endorse the 21st Century Civilian Conservation Corps (CCC) Act to re-establish this popular program. We urge you, as the current sponsor, to use this petition to create bi-partisan support. This Act will annually give more than 300,000 jobs a year. The CCC has already demonstrated that no conflict exists between the preservation of the environment and the creation of jobs. As a National Service, the CCC will put America to work on jobs that need to be done, saving our environment, and building national assets for future generations. Lastly, the CCC will give back America's integrity and global leadership in the conservation of our natural resources.
